What to include on the order

- Patient name & date of birth
- Exam requested + body area
- Diagnosis / indication
- Ordering provider name & callback number

Reads & reports

Scans are read by board-certified radiologists at Premier Radiology Services, with the report back to you typically within 48 hours. Reports are delivered by fax or PACS push with images; image disks are available for patients.

Who may order

We accept orders from any licensed provider — MD, DO, NP, PA, DC, and others as permitted. The only variable is insurance reimbursement; self-pay is always available at \$490 flat.

Accreditation

Clarus Imaging is IAC-accredited in Musculoskeletal MRI and Neurological MRI (accreditation effective through April 30, 2029).

Low patient volume means we can usually scan a patient the same day the order arrives.
